| 1762/3 | There is a schedule of papers reference the Verdicts of the Jury at the Courts Baron of the Right Hon. Lord Middleton held for the Honour of Peverell at Totley and other places in the County of Derby relating to the period 20 October 1702 to 11 May 1763. There are also 8 Suit Rolls containing the names of all freeholders and copyholders and 7 rentals of the cottages and intakes. BE has seen and has copies of most of these documents some of which are not dated and are in a separate file marked TOTLEY COURTS BARON AND LEET, 1561 – 1786 Ring binder. Unfortunately the information therein can be rather sparse. However the rentals are more interesting and contain names and sometimes trades and clues as to individual houses and then it shows the old and new rents. The rentals for 1762 indicate that there were about 24 houses in total say 90 – 120 people. | 1764 | Letter to Lord Middleton from Manley refers to Totley Court & small advance in rent in 1762 | Mi E1/1/110- 111 BE Copy |
| 1764 | Case regarding several small rents payable to the Right Honourable Lord Middleton for estates within the Manor of Totley: My Lord Middleton is Lord of the Manor of Totley and there have been Courts held there under the Honour of Peveril for upwards of 60 years as appears by the verdicts. There are many small rents payable to His Lordship some of which are not a tenth part of the value of the premises for which they are paid. It is apprehended these small rents originally arose from acknowledgements that were paid to the Lord for his consent to take inclosures of the common and that when the freeholders there agreed to permit any person to inclose such person applied to the Lord's steward for his consent who gave it upon their agreeing to pay such acknowledgment which was entered in the rental and collected by the Steward when he held the courts. By a rental dated about 1736 which is the first we can find there are three columns entitled old rents, rents as raised and received by Mr Whitehead, and rents as reduced and settled 28 October 1736 which all of them differ and if the payment of those three different sums could be made out by any accounts wherein Mr Whitehead or any of the stewards had given credit for them it might be very useful but His Lordship does not find any accounts so far back and there has never been any variation of these rents since the | Mi E1/1/7 |

|--------|--|---------------|
| | year 1736 as appears by the rentals and the late Mr Gardiner's accounts. His Lordship now thinks | |
| | it proper that these rents should be raised a reasonable way for they have long been enjoyed for | |
| | such small acknowledgements as have not half paid the expenses of the courts: But is first | |
| | desirous of knowing whether an ejectment can be maintained against the tenants of his Lordship | |
| | in case of their refusal to pay an advance rent and rendering the old ones. | |
| | | |
| | As no acknowledgement has been paid by any of these tenants to any person for the Freeholders | |
| | who had also originally a right to insist upon the same. It is apprehended the Freeholders can | |
| | now have no pretence of claim whatsoever and therefore your opinion is desired whether these | |
| | rents paid in manner aforesaid without variation for 28 years last past can give such tenants a | |
| | freehold subject to the payment of such rents. Several of the tenants are Freeholders and | |
| | therefore you will please also to consider whether such tenants who have on that account right of | |
| | | |
| | common can in law be supposed still to have preserved such right upon their respective Takes as | |
| | will now impower them to pull them down if they are determined not to pay such rent as His | |
| | Lordship expects. For although the rest of the Freeholders are precluded by time from pulling | |
| | down, yet if each respective tenant who is a Freeholder can justify this doing so upon his own | |
| | respective take this may be equally injurious to His Lordship and in such case it seems most | |
| | eligible for His Lordship to grant short leases at a very trifling advance which probably would be | |
| | | |
| | accepted of and by all the tenants and then at the expiration of such leases His Lordship's title | |
| | would be indisputable. | |
| | (see Interesting reply from Edward Wilmot 6 August 1764, undoubtedly a lawyer) | |
| | Reply by Edward Wilmot on 6 th August 1764 to the above letter is as follows: | |
| | The question arising upon the above case has been long litigated thereon and great variety of | |
| | opinion has been upon it and that same is still a vexatious question but if it can be made to appear | |
| | that such freeholders took in such inclosures from the waste with the privity and by the consent | |
| | of the then Lord of the Manor upon agreement to pay such reserved (?) rent by way of | |
| | | |
| | acknowledgement to the Lord for his license to take in such inclosures I then think that Lord | |
| | Middleton in such case may maintain such ejectment; but if such inclosures were made up and | |
| | taken in from the comon without any lease or license applied for to or granted by the then Lord, | |
| | and an adverse possession has since been continued, I then apprehend that such length of an | |
| | adverse possession will give such a legal title to the freeholders to such inclosures paying such | |
| | acknowledgements or reserved rent that Lord Middleton will not be able to maintain an | |
| | | |
| | ejectment; and I have generally observed that the judges upon the tryall of such titles have | |
| | greatly inclined in favour of such titles, where such payments of a certain small sum have been | |
| | yearly paid for a number of years: and I don't know by what right a Lord of a Manor or any other | |
| | person can refrain(?) the several tenants or freeholders in the possession of the several inclosures | |
| | taken from the common, from prostrating the fences and laying the same again open to the | |
| | common, when the rest of the freeholders will then be at liberty to retain there antient right of | |
| | common, although they were barred by the length of time the same were so inclosed, from | |
| | | |
| | pulling down the fences and laying the same open to the common, and therefore I think that if the | |
| | several freeholders will take leases (which I scares think they will) that it will be most advisable | |
| | for Lord Middleton to grant them such leases, for at the end of such leases His Lordship may | |
| | then maintain an ejectment against them and such leases will I think be an Estoppel at Law to | |
| | such freeholders from setting up a title in themselves to such premises (?) so leased. | |

| | By the intercession of your Brother Mr Francis Willoughby I obtained from the late Lord | |
| | Middleton a Deputation of Gamekeeper for the Manor of Totley in Derbyshire lying about seven | |
| | miles from Sheffield for Thomas Dalton, yeoman, who lives there & was recommended by some | |
| | gentlemen in the neighbourhood as an honest careful man and no game killer. By his care a few | |
| | broods of moor game have been to be met with for two or three years last upon the Moors, where | |
| | before that time scarce one was to be seen, & they have afforded two or three days diversion in | |
| | the shooting season to myself and one or two other Gentlemen in the Neighbourhood & other | |
| | gentlemen, who have accidentally passed that way on shooting parties, and the Poachers have in | |
| | a good measure been kept off. If Your Lordship will be so kind as to renew the Appointment of | |
| | Thomas Dalton for the same purpose, I shall esteem it as a great favour; & as the shooting season | |
| | approaches it will be very convenient to have an authorised gamekeeper there as soon as possible. I shall upon that account hope Your Lordship will please to give him the Deputation as | |
| | possione. I shall upon that account hope I our Lordship will please to give him the Deputation as | |

| 1781 | soon as the Instrument can be prepared for signing. And if Your Lordship will honour me with a favourable answer directed to me at Sheffield I will take care to have it laid before you properly drawn by Mr Manley of Chesterfield if he be the steward of the Manor as he was in the late Lord's lifetime I hope to be at Home before this day week. The melancholy occasion of my brother John's death has now drawn me hither and prevented me from making this application to Your Lordship sooner. About two months ago I called at your door in Portman Square in hopes of having the honour of seeing Your Lordship & congratulating you on your Accession to the High Honours of the Family Title & Estate, the Intelligence of which had given me sincere Pleasure. Mr Frank Willoughby called upon me in his way to Buxton & then seemed better in health tho' not without complaints, than when I had seen him the last time before that. He returned when I was at Boroughbridge, but wrote to me, that he was no worse for Buxton, tho' some Physician thought it not the proper place for him – he purposed bathing in the sea, but I sho'd think, perhaps, advice might be necessary in that case too. – My Brother Andrew is advised to Buxton, which agreed with him last year & I hope to find him in that part of the country on my return & pray his health will soon permit him to take his part in the service of his country, Which he would I believe willingly engage in, except in the hot climates which his constitution wont bear. – I beg my respects to Lady Middleton, and am, My Lord, with sincere regard, Your Lordship's faithful, humble servant Ja Wilkinson | MCNU Mi |
| | Totley 'wish an inclosure of the Commons' (BE copy) 'My Lord At the request of Mr Wilkinson I send the enclosed deputation which he desires the favour of your Lordship to execute and return to me. The freeholders of Totley wish an inclosure of the Commons within that Manor which was thought of some time ago when the late Lord Middleton was applied to regarding it, there are some disputes as to the boundaries which should be settled whether the inclosure is approved of or not and I hope that business may be done amicably as I have applied to the agents of the Dukes of Rutland and Devonshire for that purpose. I believe I shall be requested by the freeholders to wait upon your Lordship regarding these matters in the course of the summer and I will endeavour to get the necessary information in the interim. I am my Lord your Lordship's most obedient and faithful humble servant. William Manley' 23 June reply 'I desire you will make yourself acquainted how part of and in what manner my interest would be affected by an inclosure of Totley and shall be obliged to you for your thoughts and reply by letter at your leisure on that subject. The coals should be well examined as to value and not to inclose to that point be well understood and managed to the best – query if it would be advisable to come? And know what number of seams of coal are there – I had Ed Bostock states of ye coal and Mr Robert Barbers 1793 – but they are not satisfactory' M. | E1/1/7 |
